Standards of Professional and Ethical Behavior in Field Education

Please carefully read the policies below. The Standards for Professional and Ethical Behavior apply to all students enrolled in field placements (SW 7708; SW 7709; SW 8712; SW 8713) in the MSW Program at Kennesaw State University.

Due to the nature of professional social work practice, the MSW Program has different expectations of students than do non-professional programs. The standards are linked to students’ abilities to become effective social work professionals and are provided so that students and faculty can be clear about expectations and procedures to address performance concerns in field education. The ultimate goal of the Standards is to help students have a successful experience as a MSW student intern in field settings.

All social work students will be provided with and expected to read the Standards for Professional and Ethical Behaviors and the National Association of Social Workers (NASW) Code of Ethics. Students will then be asked to sign an acknowledgment that they have read, are aware of the contents of, and will abide by the documents. The form will be kept in students’ field files.

The MSW Program Field Education has the following Standards of Professional and Ethical Behavior:
