Guidelines for the Foundation Practice Field Learning Contract

1. The Field Learning Contract is the educational plan for the term of field placement; each term is graded separately. The competencies for the Field Learning Contract are developed to reflect the standards of the Curriculum Policy Statement of the Council on Social Work Education as well as the curriculum of Masters of Social Work Program at Kennesaw State University. To the best of their ability, Field Supervisors are expected to teach students the learning tasks and monitor practice behaviors that address these competencies given the limitations of their respective settings or roles. The Field Learning Contract also serves as a guide for field instruction and supervision meetings. It further creates a basis for the evaluation and narrative that occur at the end of the term.
2. Responsibility for the Field Learning Contract is jointly shared by the Student and the Field Supervisor. While additional learning tasks may be developed that go beyond the articulated tasks and practice behaviors, the Field Learning Contract should reflect the required learning for the Foundation level and term of field placement
3. Measurement criteria can include, but not limited to the following: cases, journals, written assignments and material of all kind that is reviewed by the field Supervisor; oral presentations, clinical documentation, proposals, projects, and task group participation. Direct observation (shadowing) of the Student's work is expected. Feedback and evaluative information from other staff involved with the Student's effort should be incorporated into the evaluation criteria.
4. The Student's Field Faculty reviews and approves the Field Learning Contract. It is used as a focus for agency visits as well as for any issues that may require clarification or problem-solving collaboration between the Field Faculty and the Field Supervisor.
5. The Field Learning Contract may be modified during the period of field placement to reflect identified learning needs of the Student as well as changes that may occur. Situations such as student absences beyond three days, irregular attendance, inability to complete the required number of hours and/or identified tasks/activities, change of field Supervisor or change of field assignment may need to be brought to the immediate attention of and discussed with the Field Faculty.
6. A copy of the Field Learning Contract is placed in the Student's field file.

Department of Social Work and Human Services MSW PROGRAM

Instructions for completing the learning contract sections of this document:

1. Student completes the top section of the learning contract.
2. The student completes the “learning contract activities,” in collaboration with the field/task supervisor. “Learning contract activities” are the learning opportunities (e.g., assignments, processes, tasks) in the field setting (and potentially outside setting as needed) by which progress in the competency occurs.
3. The “practice behaviors” are provided by the Council on Social Work Education and are intended to serve as integrated means of showing the knowledge, values, skills, and cognitive & affective processes within each competency. The learning activities crafted by students should connect with multiple dimensions of each competency (Knowledge, Values, Skills, Cognitive & Affective Processes); however, because evaluation of the competencies is intended to be holistic, not all dimensions must be addressed in every competency.
4. Each student’s learning activities will be unique to her/his/their field setting, focus, interests, and opportunities. The learning contract is a “live” document that can be revised over time as activities shift and opportunities arise. All revisions must be reviewed and approved by the field faculty.
5. The student and the field/task supervisor then print this document and sign and date in the space designated as “Learning Contract” on the first and second pages of this document.
6. The student submits this to the Field Faculty for review, approval and signature/date if no changes are needed.
7. All parties should keep a copy of this document each time it is changed and/or signed and dated.

MSW Foundation Practice Learning Contract

Competency 1 – Demonstrate ethical and professional behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession’s history, its mission, and the roles and responsibilities of the profession. Social Workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice.

Competency 2 – Engage diversity and difference in practice

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture’s structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.
